Year 1 –773/1110 (weightage – 30%) Year 2 – 772/1070 (weightage – 70%) Grand Total – **1688/2342** Calculated marks in Year 3 (not written on marksheet) – 915/1260 (weightage – 100%) (The above weightage is for example only, values may change for different institutes)	Year 1 – 232/333 Year 2 – 541/749 Year 3 – 1688/2342 Total – **2461/3424** (Year 1 & Year 2 marks filled after considering weightage while Grand total is filled as Year 3 marks)	72.075	71.875	**Fail** (not acceptable as the percentage filled in online application is **not equal** to that in original marksheet)
Year 1 –1000/1110 (weightage – 30%) Year 2 – 1005/1070 (weightage – 70%) Grand Total – **1704/2342** Calculated marks in Year 3 (not written on marksheet) – 700/1260 (weightage – 100%) (The above weightage is for example only, values may change for different institutes)	Year 1 – 300/333 Year 2 – 704/749 Year 3 – 1704/2342 Total – **2708/3424** (Year 1 & Year 2 marks filled after considering weightage while Grand total is filled as Year 3 marks)	72.758	79.088	**Fail** (not acceptable as the percentage filled in online application is **not equal** to that in original marksheet)

Note: (a)   The above examples are few cases observed by ICG during document verification. The responsibility of having same & correct data in both online application and original marksheet lies with the candidate such that the candidate has to provide adequate proof to establish the calculation of his percentage in qualifying examination i.e. Diploma for Yantrik candidates.

(b)   The important document to be uploaded in the application and produced during document verification (Stage II/ Stage III) by the candidate for establishing aggregate percentage in Diploma is as follows (failing which the candidature will be cancelled): -

   (i)   The document of the Board explaining the procedure for calculation of aggregate percentage by **considering all semesters/ considering all years/ not considering few subjects/considering different weightage for different semesters/years.**
   (ii)   Conversion formula for converting CGPA/ Grade into equivalent percentage.

(c)   Marks/Percentage in Diploma filled in online application should be **equal to** the marks/percentage on the marksheet of the candidate.

(d)   **For Yantrik candidates, Class X/XII marksheet should be checked only to verify that the candidate is declared as "Pass" and mismatch of marks/percentage entered in online application w.r.t. original marksheet for Class X/XII will not be a reason for rejection/ cancellation of candidature.**

EXAMPLE FOR VERIFICATION OF EDUCATIONAL DETAILS OF YANTRIK CANDIDATES

(Below mentioned various scenario are for reference of document verification during Stage-II. The below mentioned scenarios do not cover all the situations likely to be faced by ICG during document verification. Any other scenario of mismatch will be dealt as per the para 5(b)(ii) of advertisement of CGEPT 01/2022 batch. The decision of ICG will be final during document verification at any stage of recruitment)

Verification of Aggregate Percentage filled in online application if the Board awards Grade/CGPA in the marksheet

Number of Year/semester as observed with marks in Diploma marksheet issued by university/ institute	Number of Subject with marks in online application	Percentage as observed in Diploma marksheet issued by university/ institute (upto three decimal places without rounding off)	Percentage filled by candidate in online application (upto three decimal places without rounding off)	ICG Decision
I	II	III	IV	V
Year 1 – 7.21 Year 2 – 6.98 Year 3 – 8.01 CGPA – **7.36**	Year 1 – 7.21 Year 2 – 6.98 Year 3 – 8.01 CGPA – **7.36**	Conversion Formula – %age marks = CGPA*9.5 Thus,%age = 7.36x9.5=**69.920**	69.920	**Pass**
Year 1 – 7.21 Year 2 – 6.98 Year 3 – 8.01 CGPA – **7.36**	Year 1 – 7.21 Year 2 – 6.98 Year 3 – 8.01 CGPA – **7.36**	Conversion Formula – %age marks = CGPA*9.5 Thus,%age = 7.36x9.5=**69.920**	73.600(including Conversion factor of 10 in place of 9.5)	**Fail** (not acceptable since the candidate has **applied wrong conversion formula** and his equivalent %age in the online application is **not equal** to that in than that in his application. Candidate should only apply the correct conversion formula)

Note: (i)   The rules for filling in the semester wise details will also be on similar lines as explained above for year wise result.

(ii)   The candidates whose result is in the form of grade or CGPA should also follow the same rule as mentioned wherein they shall put in the marks of all the subject as considered by respective Board for calculation of grade or CGPA. They are to mandatorily upload the conversion formula prior Stage-II as published on the ICG recruitment website or in candidate's dashboard from time to time. Non-upload of conversion formula prior Stage-II will lead to cancellation of candidature.

(iii)   If the candidate has a diploma of only two years then he should be mandatorily passed in Class X as well as Class XII. However, the mismatch of percentage filled in online application for Class X & Class XII will not be the reason for rejection of candidate.

(iv)   The above examples are few cases observed by ICG during document verification. The responsibility of having same & correct data in both online application and original marksheet lies with the candidate such that the candidate has to provide adequate proof to establish the calculation of his percentage in qualifying examination i.e. Diploma in relevant trade. The important document to be produced for establishing the same are Certified Conversion formula, Authority for some or all subjects considered by Board for calculating percentage (if applicable as per his marksheet), considering all semesters, considering all years, not considering few subjects, considering different weightage for different semesters/years, etc.
